Declaration and Consent to Treat

Naturopathic medicine is the treatment and prevention of diseases by natural means. Naturopathic doctors assess the whole person, taking into consideration physical, mental, emotional and spiritual aspects of the individual. Gentle, non-invasive techniques are generally used in order to stimulate the body's inherent healing capacity. Naturopathic doctor will take a thorough case history, perform a physical examination, including a breast exam and take blood and urine samples. If your case requires, the physical may include more specific examinations such as rectal, prostate or genital exams.

It is very important that you inform your doctor immediately of any disease process that you are suffering from and any medications/over the counter drugs that you are currently taking. Please advise him immediately if you are pregnant, suspect you are pregnant or if you are breast-feeding.

As a patient you will receive information about your diagnosis and/or treatment, alternative courses of action, the material effects, costs, expected benefits, risks, side effects and in each case the consequences of not having the diagnosis and/or treatment acted upon.

There are some slight health risks associated with treatment by Naturopathic medicine.

These include but are not limited to:

- Some patients experience allergic reactions to certain supplements and herbs. Please advise your doctor of any allergies you may have.
- Fainting or puncturing of an organ with acupuncture needles. Doctors are trained to handle emergencies should the need arise.
- Pain, bruising or injury from blood draw or acupuncture or intravenous therapy.

I understand:

- I have read all the foregoing information and I understand that the ultimate responsibility for my health is my own.
- The clinic does not guarantee treatment results.
- That my Naturopathic doctor will explain to me the exact nature of any treatment provided and will answer any questions I may have.
- I am free to withdraw my consent and to discontinue treatment at any time.
